Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11,13,14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kirkpatrick et al. (6,155,619).

Kirkpatrick et al. discloses a claw tine 50 including a claw tine body, a support frame (considered the end 54 of the tine 50) which is configured to engage a support frame receiver 20, and a hydraulic cylinder 30 for moving the claw tine body between open and closed positions as shown in figures 2-4.

Concerning the claimed claw rotation ranges, it would have been obvious to one of ordinary skill in the art at the time the invention was made, to form the device of Kirkpatrick et al. with the claimed claw rotation ranges since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art (see MPEP 4144.05).

Allowable Subject Matter

Claims 1-10,12,15-34 are allowed.

Response to Arguments

Applicant's arguments, filed 9/23/04, with respect to the rejection(s) of claim(s) 1 have been fully considered and are persuasive. Therefore, the rejection has been

withdrawn. However, applicant's arguments with respect to claim 11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
